1 Report on Inaugural Session

A one-day National Seminar on “Recent Advances in Quality Education – Pave the Way” was organized by IQAC, GGDSD College, Palwal in collaboration with NAAC. The inaugural session began with the Musical blessings of Maa Saraswati and Deep Lightening by renowned guests followed by the Welcome Speech delivered by Dr. M. K. Arora, Principal, GGDSD College, Palwal. In his welcome address, Dr. Arora made a comprehensive presentation covering a broad range of aspects including, NAAC and its functioning, dynamics of Higher Education system in India. The Lecture also gave an insight into 1-Day Seminar. He also spoke at length about various achievements of College in the context of getting ready for NAAC assessment and accreditation in near future. He concluded his presentation by remarking that learning is a life-long process and this process should continue at all levels like students, teachers and administrators.

After the Welcome Note, The Proceedings of the seminar was released by the eminent guests of the session.

The Inaugural Speech by Chief Guest Dr. Ashok Divaker, Vice-Chancellor, Starex University, Gurugram highlighted the undisputed value of quality education in shaping the future of its consumers on desirable lines. He raised various important issues and concerns related to higher education system in India. Prof. Divaker observed that current higher education system in India is unable to do justice in terms of meeting the demand and supply ratio, establishing a meaningful and productive interaction between industries and institutions of higher learning as compared to the developed part of the world. He also touched upon other quality concerns in higher education in India like use of outdated pedagogical approaches, traditional curricula, memorization oriented mode of assessment and evaluation. He suggested various steps which, if followed in the true spirit, can lead to the achievement of world class institutions of Indian origin.

Professor K.C. Vashistha, Department of Foundations of Education, Dayal Bagh Educational Institute, Agra (UP), India delivered the Keynote Address. He endorsed various issues and concerns which were raised by Prof. Divaker in their speech. Apart from that, Prof. Vashistha commented that India has witnessed a tremendous expansion of higher education institutions in quantitative terms only. In his Presentation, Prof. Vashistha gave some crucial data like state wise list of universities and colleges which were accredited by NAAC, grade wise distribution of Accredited Universities across the country, breath taking expansion of higher education system in India. He observed that every stakeholder is responsible for deteriorating higher education system in India.

Dr. Mahavir Singh Khatri, Principal, NBGSM College Palwal was the Guest of honour of the session who defined the role of academia's in improving education status in India.

Mr. Mahender Kalra, Advocate president Governing Body, GGDSD College, Palwal also expressed his views and ideas to improve the quality education at college level. He emphasized the education with moral values is the need of hour for the youth of India.

The Eminent personalities and invited Principals from various college of the region was facilitated on this occasion by the Convener of the seminar.

4 Recommendations of the seminar

The seminar discussed the different aspects of higher education in detail. The major recommendations of the seminar are summarized as below:

1. University Grants Commission (UGC) as the nodal agency at the national level should be strengthened further to monitor and encourage higher education in India.
2. Quality of teacher to a large extent determines the quality of education. Therefore, for quality teachers, it is suggested that recruitment policy of the teachers in higher education may be made more objective and systematic.
3. The performance of the teacher on the job may be assessed on year to year basis including weightage for student evaluation of their teachers as well.
4. The provision for rewarding the teachers doing excellent job in teaching, research and extension may be introduced.
5. It is suggested that NAAC assessment and accreditation may be made mandatory
6. A meaningful and productive interaction between industries and institutions of higher learning may be established.
7. In order to ensure accountability in the system, it is suggested to implement reports and recommendations of various expert committees should be observed. The remuneration to teachers in the colleges, they should be made more accountable. Transparency in educational institutions should be increased and teachers should have a greater realization of their responsibilities towards the society.
8. The tech savvy era creates wonders and paves way for innovations that result in emergence of creative way of providing quality education to meet the challenges of privatization and globalization.
9. There is a need for providing a proper ICT infrastructure at all levels. ICT integration in Education has suffered a lot of impediments, it is suggested that research should be emphasized to explore the possible ways for the inculcation of ICT in education. Information and communication Technology.

EXCELLENCE

Activities of 2019 -2020

Goswami Ganesh Dutt organized online competition at national level under the auspices of UGC Cell and Women's Cell at Sanatan Dharma College, Palwal, headed by the head of the college, Mr. Mahendra Kalra Ji and Principal Dr. G. K. This was done under the able guidance of Sapra Ji. Today's corona epidemic has brought negative effects such as social distancing and lockdown, while positive aspects such as increased family immunity, improvement in environment, and enhancement of immunity due to improvement in diet have also been revealed. Keeping these things in mind and to remove the negativity inside the students, this competition was organized and to encourage the students, the organizing committee gave cash prize of Rs 1000 to the best performer in each competition. Fixed Competitions like rangoli, collage and title writing were organized under this program. The theme of the collage was the health benefits of yoga, Kovid-19 and women's human rights and self-reliant India keeping in mind the International Yoga Day and during lockdown title writing competitions on Rangoli and two beautiful paintings were organized on the theme of environmental beauty. Dr. Anju, President of the Department of Chemistry and Dr. Kanta Rani, President of the Department of Botany played the role of Jury. Dr. SS Saini, in-charge of UGC Cell and Dr. Ruchi Sharma, in-charge of Women's Cell, said that 100 participants from all over the country participated enthusiastically in this competition. Apart from Haryana, students from many cities of 4 states like Delhi, Madhya Pradesh, Punjab, Uttar Pradesh, Chhattisgarh, Uttarakhand, Rajasthan etc. participated. The happiest thing is that the students of Delhi University, BHU, Aligarh Muslim University and PG of Dehradun participated in this national level event. The students presented colorful beauty of the environment at their home using colorful flours of rice and wheat and flowers by Rangoli in a very adorable manner and took a photo of it and sent it to the competition. In the title writing competition, students presented their emotions in a very interesting manner keeping in mind the present day situation. Using the cutting of old papers and magazines presented the benefits of Yoga, the corona epidemic and mesmerizing images of self-reliant India. In the collage, Monika from Charkhi Dadri was at the first place, Neeshu Saini and Misbah Usmani at the second position and Bhoomika from Dayanand College, Faridabad and Sakshi from Dehradun stood at the third position. Ritika of Varanasi and Shanu of Dehradun were given consolation prizes. Ekta of GGDSD College was ranked first in Rangoli, Sakshi of Panipat and Meena of Karnal was second and Dimple Thakur of Chhattisgarh and Deepshikha from Jodhpur stood third. Covid-19 has accelerated adoption of digital technologies to deliver education. Educational institutions moved towards blended mode of learning. In consequence, all teachers and students

Usually, this is the time young students write entrance exams, a criterion which college to apply in India or abroad. The covid-19 pandemic checked the world. The pressure on students and higher education is high. Schools, universities are closed and exams postponed. According to UNESCO over 230 million students in schools/colleges are currently impacted. It is critical to understand the short and long-term impact and future measures. Well, ONLINE LEARNING IS HERE TO STAY: the effective response to the crisis was to go digital. Developing robust online platforms online platforms has become important. Country like India is in a crisis eras pandemic backgrounds.

in the future, and to have many opportunities in life. It helps people to become better citizens, get a better paid job, show the difference between good and bad.

But, in our education system we are believe that marks really matter and good marks will decide your future because your teacher tell you so. Your career it's down to your real-world skills and the amount of work we put in.

Impact of covid-19 on high
Education
- By Manisha

The number of COVID cases across the country are rising exponentially day even now. The longer this continues, the worse it is going to impact the economy. Until now, been estimated that it would make difference of 3.5 trillion dollars the world economy over the next years due to this crisis. A huge which has been impacted greatly is the education sector.

As we all know that coronavirus disease 2019 (COVID-19) is firstly identified in Hubei City, Hubei Province, China, the December 2019 case. A team made of virologists, clinicians, and the National Committee on Translational Science (NCTS) identifies the causative agent of COVID-19 as a novel coronavirus. A few weeks after the first identification coronavirus-2 (2019-nCoV-2) as being the COVID-19 agent in China, it is not only in China but also worldwide.

Several governmental measures have been taken throughout the world to decrease spreading the transmission of virus, decreasing, can or health, economy, self-balancing, closure of universities and schools etc. However, COVID-19 pandemic has affected all levels of education system. Educational institutions around the world have thus, temporarily closed. The world's first localized outbreak of COVID-19 in about 17 million of resident health officials, and many other countries around the world, other healthcare workers, and campus activities to reduce
