An online article writing competition was organized at the national level by the Medical and Legal Aid Cell of our college. which was presided over by the Principal Dr GK Sapra. In-charge of the program Dr NK Goel said that both black fungus and white fungus diseases are said to be very dangerous and deadly. The symptoms of both these diseases are almost similar. But white fungus is said to affect other parts of the body more. So far 197 cases of black fungus have been recorded in Delhi in Maharashtra. At present, four cases of white fungus have been recorded in Patna, so it is necessary for the students to be aware. Similarly, in view of today's social problems, students should also be aware.

Impact of Black and White Fungus on Humanity

Fundamentally a fungal infection, however unlike the other two infections, the yellow fungus could be much scarier because of the manner in which it affects the body's internal organs, according to a The Times of India report.

The yellow fungus starts off internally, causes pus leakage, slow healing of wounds, and, in serious cases, can also cause devastating symptoms such as organ failure and acute necrosis. Therefore, it remains critical that patients seek help for their infection as soon as they start observing symptoms, unity to put an end to the pandemic. Herd immunity occurs when a sufficient percentage of a population becomes immune to a disease, making the spread of disease from person to person unlikely. The good news is that SARS-CoV-2 virus has been fairly stable, which increases the viability of a vaccine.

How many types of vaccines are there?

What does it take to develop a vaccine of this kind?

View more + Show

What are the symptoms? Lethargy, low natural infection. A vaccine not only induces immune response to protect people from any future COVID-19 infection, but also helps quickly build herd immunity to put an end to the pandemic. Herd immunity occurs when a sufficient percentage of a population becomes immune to a disease, making the people can look for the symptoms like white patches on the tongue or other areas of the mouth and throat, soreness and problems in swallowing.

The first case of white fungus came from Patna, Bihar. However, the government-run Patna

IMPACT OF BLACK AND WHITE FUNGIUS ON HUMANITY

Mucormycosis, commonly called black fungus, is a serious and rare fungal infection affecting those suffering from coronavirus in India. This infection caused by a group of fungi called mucormycetes. These fungi, commonly associated with soil, decaying organic matter, and animal dung. Mucormycosis can infect the body through breathing, inhaling and exposed wounds in the skin.

Skin-related symptoms which can occur and spread to any part of the body, include blackened skin, tissue necrosis, swelling, redness, black lesions on the bridge of nose, at the corners of your mouth, pain on the face, difficulty breathing, difficulty swallowing, and infection by admetosis. Antifungal medication or performing surgery to remove the affected area. If left untreated, mucormycosis can be fatal, with mortality rate of 50%. According to the WHO, there are severe shortages of the main anti-fungal drug to treat the infection, isofluconazole, in many parts of the world. The state of Rajasthan declared a mucormycosis epidemic in March 2021, and of 40 COVID-19 survivors who developed black fungus, last month reported. A "case of black fungus" continues to move in several states, and declared as an epidemic. Four cases of white fungus have also been reported from Patna. As per four cases of white fungus infection is more dangerous than black fungus because the former impacts the lungs in a similar manner as COVID-19, with chest pain and shortness of breath, along with other parts such as nose, skin, stomach, kidney, brain. For protection against any pathogen including white fungus, CDC has recommended wearing protective clothing, such as gloves and long sleeves, and avoiding touching black mold that is growing, such as on food, and long exposure of time in the air.

BLACK FUNGUS

All India struggles hard with the second wave of the covid pandemic. Cases has been registered of black and fungal infection, which can be as deadly as coronavirus. The two types of fungal cases have been reported in the country, i.e. white and black and yellow fungus.

The central government has asked all the states to do a Covid black fungus as an epidemic. State the report Telangana, and Tamil Nadu have already declared it as a notifiable disease under the epidemic disease act. More than 5000 cases of emergency as black fungus have been registered so far in 12 states. With the urgency of original and mushrooms, said the union health ministry. People suffering from diabetes and who are

Black fungus in Covid-19 patients: What is mucormycosis, its symptoms and treatment?

Mucormycosis, a serious fungal infection but otherwise rare, has been observed in a number of Covid-19 patients recently. While there is no major outbreak, the national Covid task force has issued an advisory.

WRITS IN INDIAN CONSTITUTION

have played a key role in enforcing rights of citizens and have improved the scope of the power of judiciary. Under art. 32 Supreme Court and under art. 226 High Courts can issue writs. SC can issue writs only when there is a infringement of either legal or fundamental rights. The concept of writs was taken from English law. There are 5 types of writs -

Habeas Corpus - When a person is wrongfully or illegally detained, the court commands the person to free the person. It means prevent the body. This writ safeguards liberty of citizens.

Mandamus - Through this writ, the court commands a public official to perform a duty.

Coronaviruses are a large family of viruses that have caused illness ranging from the common cold to more severe diseases such as SARS and MERS. COVID-19 is a new coronavirus that causes respiratory syndrome (COVID-19). It is a new disease that has not been seen before.

Wash hands regularly with soap. Keep a social distance. Wear a mask when you have to go out. Drink water. Eat healthy food. Avoid going to crowded places. Avoid going to public places. Avoid going to public places. Avoid going to public places.

Conclusion: Coronavirus is one of the most dangerous viruses that are facing by people around the world. It is necessary that we come out of this situation as early as possible. So people should stay informed and maintain a good hygiene. Stay informed and maintain a good hygiene. Stay informed and maintain a good hygiene.

आर्टिकल लेखन प्रतियोगिता में विद्यार्थियों ने दिखाया उत्साह

पलवल: गोस्वामी गणेशदत्त सनातन धर्म महाविद्यालय पलवल के मेडिकल एवं लीगल सहायता प्रकोष्ठ द्वारा राष्ट्रीय स्तर पर ऑनलाइन आर्टिकल लेखन प्रतियोगिता का आयोजन किया गया। जिसकी अध्यक्षता महाविद्यालय के प्राचार्य डॉ जीके सपरा ने की। कार्यक्रम के प्रभारी डॉ एनके गोयल ने बताया कि ब्लैक फंगस और व्हाइट फंगस दोनों ही बीमारियां बेहद खतरनाक और जानलेवा बताई जा रही हैं। इन दोनों बीमारियों के लक्षण करीब-करीब समान हैं, लेकिन व्हाइट फंगस शरीर के दूसरे हिस्सों को भी ज्यादा प्रभावित करने वाला बताया जा रहा है। दिल्ली में अब तक 197, महाराष्ट्र में 1500 से ज्यादा मामले ब्लैक फंगस के रिकार्ड किये जा चुके हैं। वहीं व्हाइट फंगस के मामले अभी पटना में चार रिकॉर्ड किए गए हैं। इसलिए छात्रों को जागरूक होना अनिवार्य है। इसी तरह आज की सामाजिक समस्याओं को देखते हुए विद्यार्थियों को भारत के संविधान से संबंधित रिट के विषय में भी जानकारी होनी चाहिए। भारत में सर्वोच्च न्यायालय संविधान के अनुच्छेद 32 और उच्च न्यायालय अनुच्छेद 226 के तहत विशेषाधिकार संबंधी रिट जारी कर सकते हैं। आइक्यूएसी के प्रभारी डॉ प्रवीण कुमार वर्मा ने बताया कि वर्तमान परिवेश में विद्यार्थियों को महामारी से संबंधित जानकारियां तथा अपने मौलिक अधिकारों का किस प्रकार हम उपयोग कर सकते हैं। दोनों के लिए विद्यार्थियों को जागरूक करना अनिवार्य है। इस कार्य के लिए मेडिकल एवं लीगल प्रकोष्ठ उपयुक्त भूमिका निभा सकता है। इस प्रतियोगिता में लगभग पांच राज्यों से यूजी एवं पीजी के मेडिकल एवं लॉ कॉलेज के छात्र छात्राओं ने उत्साहपूर्वक हिस्सा लिया। इस प्रतियोगिता में एमकेजेके महाविद्यालय रोहतक की दीपिका सुहाग प्रथम स्थान पर, राजीव राजीव गांधी आयुर्वेदिक महाविद्यालय भोपाल की अदिति एवं बीआईटी महाविद्यालय दुर्ग छत्तीसगढ़ की साक्षी मिश्रा द्वितीय स्थान पर, एमकेपी पीजी महाविद्यालय देहरादून की साक्षी खनेजा एवं

वनस्थली विद्यापीठ जयपुर राजस्थान की आशी शर्मा तृतीय स्थान पर रहीं। हरि सिंह लॉ महाविद्यालय जबलपुर मध्य प्रदेश की प्रकृति व जीजीडीएसडी महाविद्यालय पलवल की मुस्कान विरमानी ने सांत्वना पुरस्कार प्राप्त किया। इस अवसर पर प्रबंध समिति के अध्यक्ष एडवोकेट महेन्द्र कालरा, उपाध्यक्ष मनोज मंगला, सचिव बंशीधर मखीजा एवं कोषाध्यक्ष नीलेश मंगला ने कार्यक्रम के प्रभारी डॉ एनके गोयल, संयोजिका डॉ रुचि शर्मा एवं डॉ मनीषा अग्रवाल को सफल आयोजन की बधाई दी तथा आगे भी ऐसे आयोजन करने के लिए प्रेरित किया।

हर सक बस इच्छा शाक्त बचा सकत ह।

एसडी कालेज की मैडिकल एवं लीगल प्रकोष्ठ ने कराई आन लाइन प्रतियोगिता

अजय प्रताप सिंह

पलवल। एसडी कालेज पलवल में मेडिकल एवं लीगल सहायता प्रकोष्ठ द्वारा राष्ट्रीय स्तर पर ऑनलाइन आर्टिकल लेखन प्रतियोगिता का आयोजन प्राचार्य डा. जीके सपरा की अध्यक्षता में किया गया। कार्यक्रम के प्रभारी डॉ एन के गोयल ने ब्लैक फंगस और व्हाइट फंगस के बारे में विस्तार से बताया और उसके लक्षण और बचाव के उपाय बताए। इसके इलावा डॉ प्रवीण कुमार वर्मा ने भारतीय संविधान में मौलिक अधिकारों का विस्तार से विवरण दिया और छात्रों को जागरूक किया। इस प्रतियोगिता में लगभग पांच राज्यों से छात्रों ने भाग लिया। प्रतियोगिता में एम के जे के महाविद्यालय रोहतक की दीपिका सुहाग प्रथम स्थान पर, राजीव राजीव गांधी आयुर्वेदिक महाविद्यालय भोपाल की अदिति एवं बीआईटी महाविद्यालय दुर्ग छत्तीसगढ़ की साक्षी मिश्रा द्वितीय स्थान पर, एम के पी पीजी महाविद्यालय देहरादून की साक्षी खनेजा एवं वनस्थली विद्यापीठ जयपुर राजस्थान की आशी शर्मा तृतीय स्थान पर रहीं। तथा हरि सिंह लॉ महाविद्यालय जबलपुर की प्रकृति व एसडी कालेज पलवल की मुस्कान विरमानी ने सांत्वना पुरस्कार प्राप्त किया। कार्यक्रम की संयोजिका डॉ रुचि शर्मा एवं डॉ मनीषा अग्रवाल ने सफल संचालन किया।
